## ***A Wonderful Sight and Sound***

Children's voices raised in song, led by Traci Keith Via, filled the sanctuary at the beginning of worship on a recent Sunday. The regular presence in the congregation of young children from three families has inspired the creation of a Children's Church in the Education Building. For photos and more details, see page 2.

# Children's Church Takes Shape

Exciting new things are happening for the children here at Cameron Presbyterian Church! On Sunday, September 8, we kicked off children's church. The past month we have worked hard to redo two rooms in the fellowship hall. One room will be used as a children's church room where we learn a lesson, do an activity and explore God's word. The second room, across the hall, will be used as a playroom for our children to enjoy playing together after their lesson. This new change will allow our parents to worship as well as give our little ones an opportunity to learn and worship together. We are looking forward to furthering our church and fostering our children's love of God!
